

syscom services fax card trade-in program

Leverage RightFax FoIP and Virtualization technologies

2011 Fax Card Trade-In Program

For a limited time, Syscom Services is offering you the opportunity to trade in your existing TR1034 or TR114 fax cards for the Brooktrout SR140 Boardless fax software.

Our Dialogic Brooktrout fax solution allows you to integrate your Voice over IP (VoIP) infrastructure with RightFax for Fax over IP (FoIP). It also allows you to virtualize your RightFax solution for redundancy and reduced operational costs. No VoIP? Our OpenText Fax Gateway can connect the SR140 to your existing telecom environment to leverage the cost savings of the SR140 and the virtual environment.

Eligible Products

Trade in any existing Brooktrout TR114 or TR1034 fax cards for:

- Dialogic Brooktrout SR140 boardless fax solution
- OpenText Fax Gateway

(Please Note: Dialogic Brooktrout TruFax Fax Boards are not eligible products for this program)

How It Works

Receive a \$75 up-front discount, per port, when you trade in a fax card for the SR140 production license. If you purchase an OpenText Fax Gateway as well, you will receive an additional \$25 per port up-front discount.

Act Now!

The Syscom Services Fax Card Trade-In Program begins on May 1, 2011 and ends September 30, 2011.

Please contact your Syscom Services Sales Representative to begin the Fax Card Trade-In Program. You will need the model number and serial number for your Eligible Product(s) and your Trade-In Product(s).

Important Information

- Your discount will not be processed without the correct serial numbers. Please double check that you have provided the correct serial numbers below.
- The number of ports traded in does not necessarily dictate your discount. For example, if you trade in a 24 port TR1034 card for a 12 port SR140 license, your discount is \$900, or \$1,200 if you purchase an OpenText Fax Gateway as well. If you trade in a 16 port TR1034 card for

a 24 port SR140 license, your discount would be \$1,200 or \$1,600 if you purchase an OpenText Fax Gateway as well. Please see your Sales Rep. for a quote.

- Please review the Terms & Conditions below, for detailed information as to how your discount is calculated.
- Returned fax boards must be in working condition.
- The Fax Upgrade Program is only available through Syscom Services.

Terms & Conditions

- Must be on RightFax v9.4 or upgrade to version 9.4 to take advantage of promotion.
- Good through September 30, 2011.
- Not valid in conjunction with any other promotional offers and/or special pricing discounts.
- Trade in discount is off of MSRP
- You are only eligible for a discount if the number of fax ports on the product(s) you purchased is greater than or equal to the number of fax ports on the product(s) you're trading in.
- Special pricing for redundant SR140 licenses available. See your Sales Rep. for more information.
- Submitting false claims or information for the purpose of obtaining or increasing the Fax Card Trade-In Discount or otherwise in connection with the Fax Card Trade-In Program (a) will disqualify a Program Participant from being able to receive any Fax Card Trade In Discount per the Fax Card Trade-In Program, and (b) will make the Program Participant ineligible for future participation in any Syscom promotional programs or giveaways, and (c) may subject the Program Participant to applicable civil liability and/or criminal prosecution.

For questions or to receive a quote, please contact your Syscom Services Sales Representative or e-mail info@syscomservices.com
